PROJECTS

(MORE AVAILABLE AT MY GITHUB PROFILE)

Customer Appointment Scheduling Application

Java, MySQL

- Java GUI time-keeping application. Connected to an AWS RDS MySQL database instance via JSch and JDBC.
- Password protected application allows users to login and manage customer and appointment data.
- Custom data access objects responsible for performing CRUD operations on database tables.
- Designed to support users from various time zones, making use of Localization and Date/Time APIs.

Asteroids Game

Java

- A simple implementation of the classic 1979 Atari game primarily using JavaFX.
- Makes heavy use of object-oriented programming principles i.e. inheritance, encapsulation, and polymorphism.
