PROJECTS   (MORE AVAILABLE AT MY GITHUB PROFILE)

Customer Appointment Scheduling Application   Java, MySQL

– Java GUI time-keeping application. Connected to an AWS RDS MySQL database instance via JSch and JDBC.
– Password protected application allows users to login and manage customer and appointment data.
– Custom data access objects responsible for performing CRUD operations on database tables.
– Designed to support users from various time zones, making use of Localization and Date/Time APIs.

Asteroids Game   Java

– A simple implementation of the classic 1979 Atari game primarily using JavaFX.
– Makes heavy use of object-oriented programming principles i.e. inheritance, encapsulation, and polymorphism.

EDUCATION

Western Governors University – Bachelor of Science in Software Development

– Attended March 2019 – January 2022 (graduation)

University of Helsinki Java Programming MOOC

– Java Programming I; certificate validation link here
