PROJECTS   (MORE + DETAILS AVAILABLE AT MY GITHUB PROFILE)

Customer Appointment Scheduling Application   Java, MySQL

– Java GUI time-keeping application. Connected to an AWS RDS MySQL database instance via JSch and JDBC.
– Password protected application allows users to login and manage customer and appointment data.
– Custom data access objects (DAO) responsible for performing CRUD operations on database tables.
– Designed to support users from various time zones, making use of Localization and Date/Time APIs.

React Quiz App   ReactJS

– Component-based quiz app built using the React JavaScript library.
– Several components and their functions allow the user to complete a quiz.
– Keeps track of score, selected answer to each question, and displays the user's final score upon quiz submittal.
